

Wicker Park Committee

General Membership Meeting April 6, 2005 at InnJoy – 2051 W Division

Alvin Joyner, president, presided over this special “Spring Mixer.” Twenty members were in attendance. The food, which was quite good, was complimentary. The drinks were reasonably priced. The service was excellent. As the weather was mild, the windows were wide open to the street and the breeze was pleasant. Spirits were high.

The only business item on the agenda was a presentation by Brent Norsman of his planned new construction, a single-family home at 1729 W Potomac, for which he’s requested a zoning change. He presented at the behest of the Planning and Development subcommittee, whose members already voted in favor. After viewing numerous illustrations and projections, and asking some questions, the membership voted 18 for, 0 against, 2 abstaining.

Then came the mixing.
